Year 5 Newsletter: Autumn Term, Week 6

This week in Year 5

Year 5 had a wonderful time at the Science Museum today! The children explored the space gallery, filling in a booklet as they went. After lunch, we went to the IMAX cinema to watch 'A Beautiful Planet.' The children absolutely loved putting on the 3D glasses and trying to touch the stars!

In Maths this week we have been learning about prime, square and cube numbers. In English, the children have been practising introducing a threat in their suspenseful writing by using 'empty' words and rhetorical questions.

Congratulations to the five children in Year 5 who represented the school at the ISI cross country event on Wednesday. Miss Robertson fed back how well the children conducted themselves throughout the day.
